Re: Notice of Surety Bond Cancellation, Meadow Valley Contractors, Inc., Topaz Valley Limestone, M/023/022, Juab County, Utah

Dear Mr. Day:

On April 24, 1995, we received a notice of cancellation (copy enclosed) from Cigna Insurance Company of North America regarding the Reclamation Surety Bond held on behalf of Meadow Valley Contractors, Inc. for the Topaz Valley Limestone quarry, located in Juab County, Utah. Because Rancho Equipment Services is a co-operator of this mining operation, we are hereby notifying you and Meadow Valley Contractors, Inc. that a replacement \$35,300 reclamation surety must be filed with this Division at least 30 days prior to the actual expiration date of August 24, 1995.

If we do not receive a replacement surety by July 24, 1995, we will be forced to commence bond forfeiture proceedings. The Utah Mined Land Reclamation Act does not allow a large mining operation to mine without sufficient reclamation surety being in effect. Thank you for your cooperation and immediate attention to this matter. Please let us know what form of replacement surety you will pursue, so that we can provide you with the appropriate surety forms. If we can answer questions or assist you further in this regard, please contact us at your earliest convenience.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
